HOPE'S

THE NAME GUARANTEES

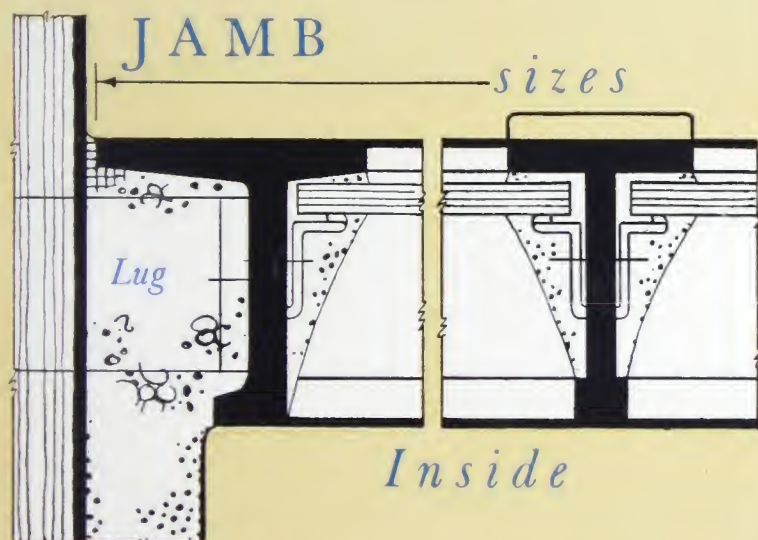

HOPE'S STAND

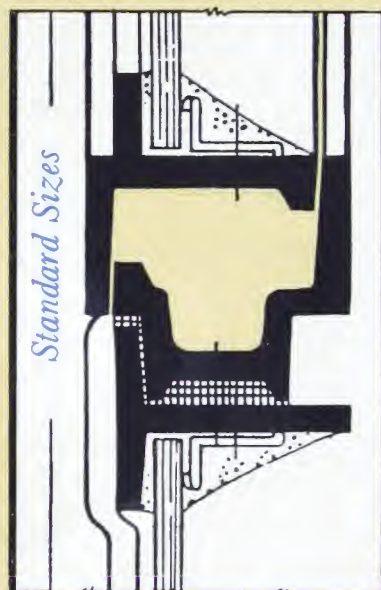

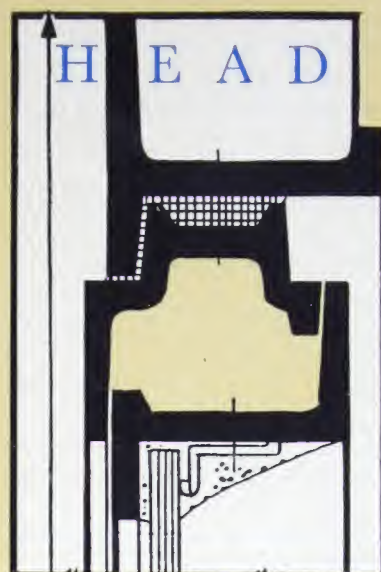

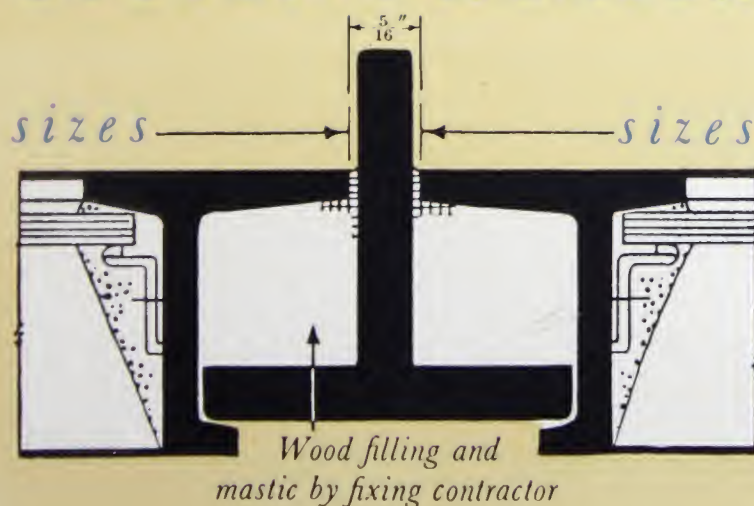

HOPE'S *Standard* SASHES

ALL VENTILATORS are made as complete casement and frame before screwing into sash opening; there are no applied linings.

COUPLING. Owing to the immense strength of our sash bar, units can be coupled vertically or horizontally in large areas. Sashes and mullion bars are despatched separately for assembling on site by contractor.

SPECIFICATION

Sashes are prepared for inside putty glazing with a flanged frame bar all round suitable for fixing to brickwork, concrete or steelwork. Lugs or bolts and nuts for fixing are sent separately.

Ventilators unless specified otherwise are swings, but casements hung at bottom or top can be supplied without extra cost when specially ordered.

HORIZONTAL CENTRE HUNG VENTILATORS are hung on bronze cup pivots, and fitted with a bronze spring catch for hand, pole or cord operation.

TOP HUNG VENTILATORS are hung on bronze cup pivots and fitted with a bronze cam opener for hand or pole operation.

BOTTOM HUNG VENTILATORS are hung on bronze cup pivots, fitted with concealed side arms and bronze spring catch for hand, pole or cords.

HOPPER CASEMENTS can be supplied at an extra cost having side cheeks prepared for glass or of solid steel and fitted with a bronze spring catch for hand, pole or cord operation.

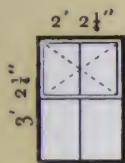

SIZES are overall steel frames.

GLAZING. Holes are drilled and spring wire glazing clips will be supplied when ordered. Glass sizes will be sent on request.

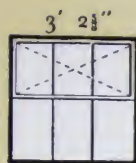

PAINT. Sashes are dipped in heavy red oxide paint stoved on at a high temperature.

Handling, fixing and glazing instructions are sent with each consignment.
